DETAILED ACTION

Claim Objections

Claim 20 is objected to because of the following informality:

The term "the ball is spring-loaded" (claim 20, line 1) is redundant to the "spring-loaded ball" of claim 19, line 1.

Appropriate correction is required.

Allowable Subject Matter

Claims 17-19 and 21-23 are allowed. The following is a statement of reasons for the indication of allowable subject matter:

The Examiner considers Patent Number 2,292,965 by Osborne ("Osborne") to be the prior art most closely related to the Applicant's claimed invention. Although the switch 55 disclosed by Osborne comprises a finger 50 disposed on pivot dog 46 that is pushed by a passing coin to an open position, it fails to disclose or suggest a finger pushed by a coin to a closed position.

Conclusion

The following prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Patent Number 4,199,669 by Vogt because of its switch-actuating dog 34,

Patent Number 2,132,253 by Wirt because of its coin-actuated pivot 51, and

Patent Number 1,154,381 by Corbet because of its pivot 13.
